From

B. JAYA RAM, Esquire, F.G.S.,
Director, Mysore Geological Department.

To

V. Matthan, Esq., B.A.,
Offg. Chief Secretary to the Government
of His Highness the Maharaja of Mysore,
Bangalore.

Sir,

I have the honour to submit herewith for the orders of Government, a copy of an application, dated 5th March 1921, from Mr. V. N. Krishna Iyer of the Mysore-Hassan Minerals Mining Company of Mysore for a Mining Lease for Asbestos, Garnets, Graphite, Talc and Mica for a period of 30 years over the block of one square mile in the Hole-Narasipur Taluq, held by him under Prospecting License No.519 and outlined on the enclosed plan.

2. The application is under the Rules at present in force and has been made during the currency of the license under which a lease is claimed, but is defective as detailed here-under.-

(i) Under the license in question the applicant cannot claim a block larger than ¼ mile square of the prospecting block or 1/16 square mile;

(ii) Under the Rules in force the maximum limit ordinarily admissible is 1/8 square mile; and

(iii) the period of the lease under the Rules can only be for 10 years with a right to a renewal for a further 10 years.

3. The above defects having duly been pointed out to the applicant he represents in his letter, dated 17th June that the deposits of Asbestos and Mica are irregularly distributed over the area of the prospecting block and

that

that it is therefore necessary that a lease over the entire area should be taken out in order to fully develop and work the deposits. A copy of the letter is also submitted herewith.

4. Although the Rules do not ordinarily admit of the grant of a lease over an area larger than 1/8 square mile, relaxations under special circumstances arising out of the distribution of Mineral deposits, etc., are provided for. In view of the fact that the Mineral asbestos has not been so far satisfactorily Exploited and that its mode of occurence so far known seems sporedic, I beg to recommend as a special case the kind sanction to the grant of a lease for a term of 10 years as under the Rules over the entire block of one square mile as applied for.

5. The Prospecting License in question was held for Mica, Asbestos and Graphite, but in the present application two more Minerals Talc and Garnet are sought for. I see no objection in complying with the licensee's request.

I have the honour to be,

Sir,

Your most obedient servant,

B. Foye Rau

Director,

Mysore Geological Department.

7

Letter, No.1737, dated 17th June 1921, from Mr. V.N. Krishna Iyer, Proprietor, The Mysore-Hassan Minerals Mining Company, Kabbur, to the Director, Mysore Geological Department, Bangalore.

In reply to your letter No.1737, dated 29th April 1921, regarding the Mining Lease applied for by me over a block of one square mile of land comprised in my Prospecting License No.472 in the Hole-Narasipur Taluq, I have the honour to state that the deposits of asbestos and mica are so irregularly and sporadically distributed in the area that they can be fully developed only through actual Mining Operations carried on ~~of~~ by means of a number of excavations in different places far remote from one another. The remotness of the deposits and their sporadic nature render it most essential that I should have even a much longer area than one square mile in order that the Ore deposits can be fully developed and my venture become successful and profitable.

I beg, therefore, that you may be kind enough to recommend the grant of a Mining Lease over the entire area of one square mile as applied for by me.

To

S. Hiriannaiya, Esquire, M.A.,B.L.,
Secretary to the Government of His
Highness the Maharaja of Mysore,
General Department.

Sir,

With reference to your letter No.I.C.4503/Geol 16-21, dated 17th February 1922, communicating the sanction of Government to the grant of a mining lease for Mica, Asbestos, Graphite, Garnets and Talc to Mr. V. N. Krishna Iyer over a block of land in the Hole Narsipur Taluk, I have the honour to invite your attention to the fact that the area applied for is not half a square mile as stated in the above letter but one square mile - the entire extent of the lands comprised in the Prospecting License No.519. The recommendation made to Government in this matter in letter No.114, dated 20th July 1921 (para 4), is also in respect of the entire area of the prospecting block, Viz., one square mile and I request therefore that the order may kindly be revised accordingly.

I have the honour to be,
Sir,
Your most obedient servant,
